Plus a Whole Lot More!

Welcome to LEGOLAND® Park!

There really is a fantastic world made up of millions upon millions of LEGO® bricks and pieces: LEGOLAND® Park! Located in Billund, Denmark, LEGO-

LAND Park was the dream of Godtfred Kirk Christiansen, son of the founder of the LEGO Group. He wanted to create a wonderland where all the fantasy and imagination of building with the colorful bricks and pieces would have no limits. Godtfred's dream became a reality in 1968, when LEGOLAND Park opened its gates. Since then, more than 10 million people from all over the world have thrilled to the park's fun and excitement.

Built on over 40 acres of land, LEGOLAND Park has lots of different "worlds", fabulous exhibits, fun-filled activities, and exciting rides. Any time of day, you can catch the LEGO Train and take in all the colorful surroundings. You can also get a spectacular "bird's-eye-view" of the park in the LEGO-TOP as its revolving observation tower lifts you 75 feet up off the ground!

At MINILAND, you'll enter a fascinating and unusual land. It's full of busy cities and towns, along with quiet countryside landscapes. Time travel is quick and easy here because the past and present both come together in MINILAND. While there, you

can visit perfectly recreated European castles and take a tour through medieval Germany. There's also a modern international airport, as well as ancient cathedrals. You can even look in on a scale model of Amsterdam, full of buildings, houses, bridges, barges, canals, and windmills. Some of the miniature models are electronically animated so that all of MINILAND really comes to life!

You'll become a world traveller when you take a LEGOLAND Boat on a breathtaking World Cruise! As you round the river's bends, you'll see the Temples of Thailand, the Japanese Imperial Palace, a Bavarian castle, an African village, the ancient Egyptian temple of Abu Simbel, and the Greek Acropolis...as well as many other remarkable sites from around the globe.

For old-time Wild West fun, you won't want to miss LEGOLAND Park's LEGO-REDO! Imagine visiting with the sheriff, cowboys, cowgirls, and Indians while you pan for gold, take a train into the LEGOLAND Mining Company's tunnels, ride a pony, listen to a country band, cook sourdough bread over a campfire, and experience the excitement of the Timber Ride!

At LEGOLAND Park, you'll hear the call of the jungle when you take the LEGO Safari! A zebra-striped car will whisk you away into the wilds, where you'll see life-size and life-

like jungle animals — all made entirely out of LEGO bricks and surrounded by a lush tropical landscape. Best of all, these elephants, giraffes, flamingoes, zebras, lions, and other great creatures look like they're enjoying the day in the jungle as much as you are!

Designed especially for younger kids, the FABULAND® Mini-Park is a fabulous land of adventure! There are FABULAND cars you can drive — or, you can ride high above on the FABULAND Monorail. There are also LEGO boats, planes, and the fantastic LEGONDOL Ferris Wheel — not to mention all the FABULAND fun animals that are there to meet and greet you!

Hours of fun are also in store for you at LEGOLAND's Doll Collection Exhibit, Fairy Queen Titania's Enchanting Miniature Palace, Mechanical Toy Exhibit, LEGO Historical Exhibit, Fantasia, the LEGO World Show, Puppet Theatre, and other LEGOLAND events and activities. Naturally, there are lots of play areas that are full of LEGO bricks and pieces for on-the-spot creating of your own!

LEGOLAND Park is truly an unforgettable place! It was built, one brick at a time, for families all over the world, just like yours! Try using your bricks to build your own LEGOLAND creation — and see how much fun you'll have!
